EDUCATION

University of Science - VNUHCM

2022 - 2026 (Expected)

- · Major: Software Engineering
- GPA: 3.62/4
- Course taken: Object Oriented Programming, Data Structures and Algorithms, Database System, Windows Programming, Web Application Development, Software Engineering, Operating Systems

PROJECTS

Nau Cosmetic: https://naucosmetic.com
(https://github.com/Nagnie/Cosmetic Web Store)

March 2025

- E-commerce Website for Cosmetics
- Team size: 4 (2 frontend, 2 backend).
- My role: Front-End.
 - Developing a website for a cosmetic store, collaborating with backend developers to integrate RESTful APIs.
 - Implemented a responsive UI and enhanced user experience.
 - Utilized modern frontend technologies for seamless interaction.
 - Deploying the website and ensuring smooth operations.
- Technologies: React.js, Nest.js, PostgreSQL, Tailwind, Swiper.js, Vite, Redis, Frame Motion, Docker

Booka Stay

October 2024 – January 2025

https://github.com/luricisme/Website_BookingHotel

- · Hotel Booking Website.
- Team size: 4 members (2 Frontend, 2 Backend).
- My role: Front-End.
 - Designed and implemented user-friendly UI for multiple pages, ensuring seamless navigation and responsiveness.
 - Collaborated with backend developers to integrate RESTful APIs, enhancing functionality and performance.
 - Conducted usability testing to improve the user experience and addressed feedback effectively.
- Technologies: React.js, Nest.js, PostgreSQL, Bootstrap, Swiper.js, Vite, Docker

Cosmetic Store Management

October 2024 – January 2025

(https://github.com/Nagnie/Cosmetic-Store-Management-System)

- Team size: 3 members.
- Developing a desktop application for managing a cosmetic store, using WinUI.
- Responsibilities:
 - Designed intuitive UI layouts and elements for improved usability.
 - Implemented both **frontend** and **backend** functionalities, including data synchronization and CRUD operations.
 - Ensured data accuracy and performance optimization when integrating with PostgreSQL.
- Technologies: WinUI, .NET, C#, PostgreSQL

SKILLS

Technical Skills

- Programming Languages: JavaScript, HTML, XAML, CSS, C++, C#, Python
- Frameworks & Libraries: Node.js, React.js, Vue.js, WinUI, .NET, Tailwind, Bootstrap, Frame Motion.
- Databases: PostgreSQL, Microsoft SQL Server.
- More: Visual Studio, Visual Studio Code, WebStorm, Git, GitHub, Agile, Cl CD, Linux, Jira, Trello, Figma, Docker, Jenkins

Soft Skills

- Strong reading and analytical skills in English.
- Effective collaboration and teamwork in both English and Vietnamese-speaking environments.
- Problem-solving, analytical thinking and adaptability in dynamic project settings.
- Good self-learning and research capabilities.
- Attention to detail and a proactive attitude toward feedback.

LANGUAGE

- TOEIC Listening & Reading: 830/990
- TOEIC Speaking & Writing: 280/400
